OU2 Baseline Risk Assessment.pdf

Ex. 6 - Personal Privacy

Absolutely.....the files together in the e-mail will not go (due to size), so I'm going to send them separately.....here's the Risk Assessment.

Thank you for that clarification. It cleared up a lot of confusion. However, can I still receive documents regarding OU-2 if you have electronic copies? Considering the subsurface smoldering event, I am interested in obtaining any background information regarding the entire landfill.

Sincerely,
Rio Schondelmeyer

Documents such as the Risk Assessment (RA) and Remedial Investigation (RI) dated in 2005 are for Operable Unit 2, which includes the non-radioactive municipal landfill cells. The RI and RA for OU-1 (radioactive landfill cell) were conducted in 2000.

Thanks.

Debbie

Dear Ms. Kring,

I noticed there is a copy of a revised Baseline Risk Assessment and Remedial Investigation Report (both are dated September 2005) with the Administrative Record in the Bridgeton Trails Library. I was wondering if you have an electronic copy of those documents and if you could send them to me. Thank you for all your help!

Sincerely,
Rio Schondelmeyer
